Bhiwani, Haryana | Projects -github.com/Laxmi249

Portfolio : https://laxmi249.github.io/

Skills

Data Analysis: Proficient in Excel, SQL, Power BI, and Python for data analysis and reporting.

Data Visualization: Experienced in creating dashboards and visual reports using Power BI.

Database Management: Skilled in SQL, database design, and management.

Programming: Knowledge of Python for data manipulation and analysis.

Work Experience / Projects

Diabetes Prediction Website| Python

- Developed a Flask-based web app for diabetes prediction using machine learning models.

- Achieved up to 85% accuracy through data preprocessing and model optimization.

- Enabled real- time risk assessment with a user-friendly interface for early diagnosis.

Pizza Sales Dashboard | SQL | Power BI

- Created an interactive pizza sales dashboard in Power BI using SQL-based data modeling.

- Analyzed sales trends, top-performing items, and peak order times over 12+ months.

- Improved business insights and reporting efficiency by 30% through visual analytics.

HR Analytics Dashboard | Power BI

- Designed an HR analytics dashboard in Power BI to visualize key workforce metrics.

-Tracked employee attrition, hiring trends, and departmental performance effectively.

- Improved HR decision-making by 35% through interactive and data-driven insights.

Sales Performance Dashboard | Excel

- Built a dynamic sales performance dashboard in Excel using pivot tables and charts.

- Tracked monthly revenue, regional sales, and top-performing products efficiently.

-Enhanced reporting speed and decision-making with automated data visualizations.

Education

-Bachelor of Technology in Computer Science | BRCM CET, Bahal, (Bhiwani),Haryana | July 2025

- Relevant Courses: Data Analysis, Database Management, Python Programming, Statistics.
